RE: All Ways Electric

To Whom It May Concern,

This letter is intended as a professional recommendation for All Ways Electric Company. We have worked with Duane Chamberlain II and Valerie Chamberlain over the past (6) six years on a variety of many projects.

Duane and his crew are always very professional, organized, resourceful, clean, honest, and responsive. When it came to the many "challenges" that were encountered on various projects, they handled the pressures professionally and did what needed to be done to get all projects done on time.

It is always a pleasure to work with All Ways Electric Company and their team. We look forward to many more successful projects with All Ways Electric.

Sincerely,

Jeff Maddox  
President
