Re: Always Electric

To whom it may concern:

I just wanted to take the opportunity to once again express my gratitude and appreciation to the team at Always Electric on the completion of yet another successful project together. It never ceases to amaze me that no matter how fast or how many changes and extras our owners throw at us that your team is always there organized, moving forward, and ahead of the game when it comes to getting the project completed and assuring that all the electrical work is coordinated with the other trades and installed in a professional manner.

We have been working together since before you started your own company and have increased our projects together once you started your own business. I look forward to our relationship continuing to grow and I say to anyone looking to hire an electrician for a project that they will not find a more fair, hardworking, and team oriented electrical contractor than Always Electric. If you have a potential client in the future that needs to confirm your companies abilities please do not hesitate to have them contact me as a reference.

Again, I look forward to a bright future working with all the team members at Always Electric and thank you again for everything you do for my projects.

Sincerely,

Timothy P. Kelley
